

WellConnect®
can Help
Contain Costs
and Increase
Office Efficiencies

Making the call
for better health

What is WellConnect?

WellConnect is a web-based and mobile-friendly broadcast messaging system that makes it easy to send personalized phone and text messages to your patients.

With WellConnect you can:

- Increase immunization rates for children, adolescents and adults
- Use the “power” of a doctor’s voice to increase patient visits
- Send wellness messages, drug recalls and office changes
- Save on mailing costs for appointment reminders
- Save office staff time by automating appointment-reminder telephone calls.
- Get started with 625 free credits
